The Children's Defense Fund (CDF) envisions a nation where marginalized children flourish, leaders prioritize their well-being and communities wield the power to ensure they thrive. We serve and advocate for the largest, most diverse generation in America: the 74 million children and youth under the age of 18 and 30 million young adults under the age of 25, with particular attention to those living in poverty and in communities of color. CDF partners with policymakers, aligned organizations, and funders in this service. The Children's Defense Fund is the only national multi-issue advocacy organization working at the intersection of child well-being and racial justice by wielding the moral authority of programmatic proximity and community organizing to inform public policy.
